Jawaharlal Nehru National Solar Mission is a major initiative of the Government of India and State Governments to promote ecologically sustainable growth while addressing India's energy security challenge. In keeping with the immediate aim to focus on setting up an enabling environment for solar energy penetration in the country, GOI have assigned C-WET the ambitious task of setting up facilities, collecting and analyzing solar irradiation data from various stations spread throughout the country. These activities will be performed and monitored by a Solar Radiation Resource Assessment Cell (SRRA). SRRA Cell will also serve as a laboratory for calibration of sensors deployed for collection of meteorological parameters.
